Additional Resource: Clinical Determinations and Indications. VA Clinical Determinations and Indications (medical policies) describe standard VA health care benefits for services and procedures that community providers may recommend as necessary for a Veteran. Prior to providing care, providers should use Clinical Determinations and Indications (CDIs) as a reference when determining if a Veteran meets VA clinical criteria. When additional services are requested, Clinical Determinations and Indications will be used to determine approval by a clinical reviewer. Clinical Determinations and Indications, as well as supporting information, can be found at: <https://www.va.gov/COMMUNITYCARE/providers/info-CDI.asp>.
